1 INTRODUCTION

This document presents the Analysis Reports required for the preparation of the Environmental Impact Study and its Environmental Impact Report (EIA/RIMA) referring to the dissolving pulp mill implementation from LD Celulose, located at Indianópolis (industrial site) as well as in Araguari (water intake and treated effluent disposal pipelines) – MG.

There are presented the following Analysis Reports:

- Surface Water Monitoring Report;
- Soil and Groundwater Monitoring Report;
- Noise Monitoring Report; and,
- Air Quality Monitoring Report.

ANNEX I
SURFACE WATER MONITORING REPORT

ANNEX II
SOIL AND GROUNDWATER MONITORING REPORT

**ANNEX III
NOISE MONITORING REPORT**

ANNEX IV
AIR QUALITY MONITORING REPORT
