

This is a category IF-2 project according to the IIC's Environmental and Social Sustainability Policy because of the medium risk of the subprojects in the financial intermediary's current or future portfolio. In order for Banco Internacional S.A. to gain a better understanding of the IIC's environmental requirements, a representative of the Bank will attend an IIC or IIC-approved training session on this issue designed for financial entities. Each subproject financed with IIC funds will be subject to an environmental review and comply with national environmental and occupational safety standards and IIC environmental guidelines. The Bank will also apply the IIC's list of exclusions for the use of its resources. The Bank will be required to submit annual environmental reports to the IIC detailing the progress made and/or improvements in the adoption of the Environmental Management System, as well as the problems identified during the implementation of that system.
